LOGISTIC & WAREHOUSING

The Problem,

There are no bridges to resellers and suppliers. And there is no easy platform for the management of goods and stock.

The Challenge,

1. In 2015 we build startups to launch a communication between reseller and supplier
2. Making communication with the chat via the android platform
3. Easily transactions with Epay Mandiri
4. Shopping chart with goods ready stock and pre order.

The Solution,

Visione-System helps to develop a startup to connect B2B company. In This platform B2B companies can search supply for their production line or post their products.
